

Sabor

Sabor

In this itinerant show, some characters appear spontaneously in your city to lead the public on a journey full of energy, madness and vitality. They create a dialogue through the rhythm with the viewer where contagion is explosive and imminent. Street entertainment where percussion, dance and improvisation are fundamental elements to attract everyone in this collective experience.

Sabor it's alive and unic in each performance!

Maximum: 5h

about us.

“Sentimos o tambor, tocamos com o coração”

Sound de Secà is a catalan percussion company with 10 years of experience. In our creations, we merge our own musical composition with movement, song and interpretation.

The shows we offer are visually and choreographically combined through the melodies that flow and mark our own style. The musical variety is focused on rhythms played with percussion instruments; sometimes we can also find in our performances the presence of melodic instruments such as the ukulele and the accordion.

We are a multifaceted company with the eagerness to constantly reinvent ourself by adding new elements to percussion. Apart from our street shows, both static and itinerant, we have the ability to create new ones in order to fit into different demands, creating special characterizations and customized formats.
